Week 2

11/3/2022

for next week:
- update release notes, Readme, project board, github repo
- have the plan for next week

(contents of readme are in the project guide)

Project dashboard:

user stories - description and assigned to particular epic (see lab2)

Don't work on main branch

name of the branch should be connected to the user story you are working on

don't push all the changes at once

each one of us should push AT LEAST 3 commits

Project evaluation:

individual contribution: weekly meeting attendance, what % have you contributed (number of commits for the entire project)

we can work on everything in parallel or choose tasks on our own

code on main branch must always work
